| Date | 24-06-2025 |
| Team ID | LTVIP2025TMID55113 |
| Project Name | OrderOnTheGo: Your On-Demand Food Ordering Solution |
| Maximum Marks | 4 Marks |

Project Overview

OrderOnTheGo is a dynamic food ordering platform connecting customers with nearby restaurants for dine-in, delivery, and takeaway. Features include restaurant listing, menu browsing, real-time order tracking, secure payments, and admin control.

Version: v1.0.0

Testing Period: 17-07-2025 to 19-07-2025

Testing Scope

- Customer registration and login
- Restaurant onboarding and profile setup
- Menu upload and item management
- Food ordering (delivery, dine-in, takeaway)
- Order tracking and status updates
- Online payment gateway
- Admin dashboard and control panel
- Review and rating system

Requirements to Be Tested

- As a customer, I want to easily search and order food from nearby restaurants.
- As a restaurant owner, I want to manage my menu and orders efficiently.
- As a user, I want secure login, real-time order updates, and payment confirmation.
- As an admin, I want to monitor users and manage restaurants and complaints.

Testing Environment

| | |
|------------------|---|
| URL | https://orderonthego.example.com |
| Customer Login | test.customer@ordergo.com / customer123 |
| Restaurant Login | test.restaurant@ordergo.com / resto123 |
| Admin Login | admin@ordergo.com / adminpass |

Test Cases

| Test Case ID | Test Scenario | Test Steps | Expected Result | Actual Result | Pass/Fail |
|--------------|-----------------------------|--|-------------------------------------|------------------------------|-----------|
| TC-001 | Customer Registration | Visit site → Sign Up → Fill form → Submit | Account created and redirected | Account created successfully | Pass |
| TC-002 | Restaurant Profile Creation | Login → Fill details & menu → Save | Profile saved and listed | Profile saved successfully | Pass |
| TC-003 | Place an Order | Login → Browse menu → Add to cart → Checkout | Order placed and shown in dashboard | Order placed | Pass |
| TC-004 | Admin View | Login as admin → Check restaurant data | Dashboard loads with full access | Dashboard fully loaded | Pass |
| TC-005 | Order Tracking | Place order → Navigate to order status | Order tracking updates in real-time | Real-time tracking visible | Pass |

Bug Tracking

| Bug ID | Bug Description | Steps to Reproduce | Severity | Status | Feedback |
|--------|-------------------------|------------------------------|----------|--------|---------------------------------|
| BG-001 | Menu filter not working | Search by cuisine + location | Medium | Open | Only partial results are shown |
| BG-002 | Payment failed | Try Razorpay sandbox | High | Fixed | Failure on second retry attempt |

Sign-off

| Tester Name | Date | Signature |
|--------------------|------------|--------------------|
| K . Surendra kumar | 26-07-2025 | K . Surendra kumar |

Notes

- Test across multiple devices and browsers
- Include edge cases (e.g., invalid input, failed payments)
- Ensure responsive UI for mobile & desktop
- Ensure secure access and data validation
